

Sign Your Watchman's Charter (Commissioning)

Sign it. Name the one tool you'll keep. Say what changed in you.

You started this Mission as a man with AI. You finish it as a watchman with a charter, a system, and a person you've trained. This is the commissioning: you sign the Charter you wrote in Week 1 — refined by everything since — name the one tool you'll keep using, and say in one sentence what changed in you over twelve weeks. Posted publicly in the cohort, you're commissioned.

THE ACTION

- Pull up your Week 1 Charter and revise it with twelve weeks of hindsight.
- Sign it — date it, your name on it, a real commitment.
- Post your commissioning in the cohort channel:
 - A screenshot of your signed Charter.
 - The one tool you'll keep using past this course.
 - One sentence on what changed in you.
- Then go live it. The course ends; the watch continues.

COMMISSIONED, NOT GRADUATED

Graduation is the end of a class; commissioning is the start of a duty. You don't leave this course finished — you leave it posted. Stand your watch.

SCRIPTURE

Ezekiel 33:7 — "So you, son of man, I have made a watchman for the house of Israel." The same verse you started with — but now it's yours, signed, and standing. Hear the word, and give the warning.
