

# Build One Ministry Workflow

*Sermon prep, study, outreach, follow-up. Make it repeatable.*

---

Pick one ministry workflow. Build it. Test it on a real task. Make it sound like you, not the model.

## Action checklist

- Build a repeatable Claude workflow you'd use again next Sunday.
- Test it on a real task this week. Not a fake one.
- Watch for AI fingerprint phrases. Strip them. Sound like you.
  - "Delve" → "look at"
  - "Elevate" → "raise" or just delete it
  - "In today's fast-paced world" → cut it
  - Em-dashes everywhere → use periods sometimes
- Read your output aloud before sending. If it doesn't sound like you talking, it isn't.

## Scripture sit

*Colossians 3:23 — Whatever you do, work as for the Lord. Including the unglamorous repeatable workflow.*
